

Vulnerability Research Labs

Sales Engineer

Here at Vulnerability Research Labs we have spent more than a decade becoming a technical leader in cyber security. We became a leader in the field because we believe in our mission – to be at the forefront of cyber security and deliver unparalleled capabilities that solve our customer’s hardest problems.

We’re currently seeking a full-time Sales Engineer in our Columbia, MD office. This position serves as a liaison in the sales process between business development teams and the engineering department

Your day-to-day at Vulnerability Research Labs:

- Providing expertise and support to Business Development to communicate products details, services, and client needs
- Supporting and conducting the preparation and presentation of customer demonstrations of products
- Establishing personal rapport with potential and current customers and partners
- Liaising with engineering and product development teams

Job Requirements and Qualifications:

- Bachelor’s degree in Engineering or Computer Science preferred
- 3 to 5 years of industry sales experience
- There are essential functions of this position that require work in the office or at customer sites
- Excellent verbal and written communication and presentation skills
- Excellent sales and customer service skills with a proven ability to explain technical products to non-technical audiences
- Ability to apply engineering, technology, or other related principles to product sales
- Solid understanding of software requirements and product development requirements and analysis
- General programming skills and knowledge
- Creativity to approach sales with innovation and build customer relationships in groundbreaking ways
- Solid experience in Cybersecurity and vulnerability research industry
- Negotiation and social problem-solving skills
- Willingness to travel to customer locations (mostly local to DMV area)
- Ability to work effectively in team-based environments as well as on tasks requiring high levels of initiative, autonomy, discretion, and independent decision-making

Things we like best about VRL:

- The chance to work with the best in the business
- Solving hard problems
- A strong focus on learning and career development including conference and training opportunities
- Most of all: an interesting and challenging workplace that takes care of its employees

Alternate Job Titles: Solutions Engineer
